Practical 1 – creating an aws account applying multi factor authentication

Improve the security of your account by registering **multi-factor authentication (MFA)** using one of the options below. This provides a second means of verifying your identity in addition to your password. Learn more

MFA device name

Device Name

Maximum 128 characters. Use alphanumeric and '+ = , . @ - _' characters.

Passkey or Security key

Authenticate using your fingerprint, face, or screen lock. Create a passkey on this device or use another device, like a FIDO2 security key.

AWS recommends using a passkey or security key as an MFA device as they provide the most protection against attacks such as phishing.

Authenticator app

Authenticate using a code generated by an app installed on your mobile device or computer.

Hardware TOTP Token

Authenticate using a code generated by hardware TOTP token or other hardware devices.

Set up authenticator app

An authenticator app is an application running on your device that you can configure by scanning a QR code.

1. Install a compatible application such as Google Authenticator, Duo Mobile, or Authy app on your mobile device or computer.
   See a list of compatible applications
2. Show QR code
   Open your authenticator app, choose Show QR code on this page, then use the app to scan the code.
   Alternatively, you can type a secret key.
   (Show secret key)
3. Enter two consecutive codes from your authenticator app. Enter the first code, wait a few seconds and then enter the second.

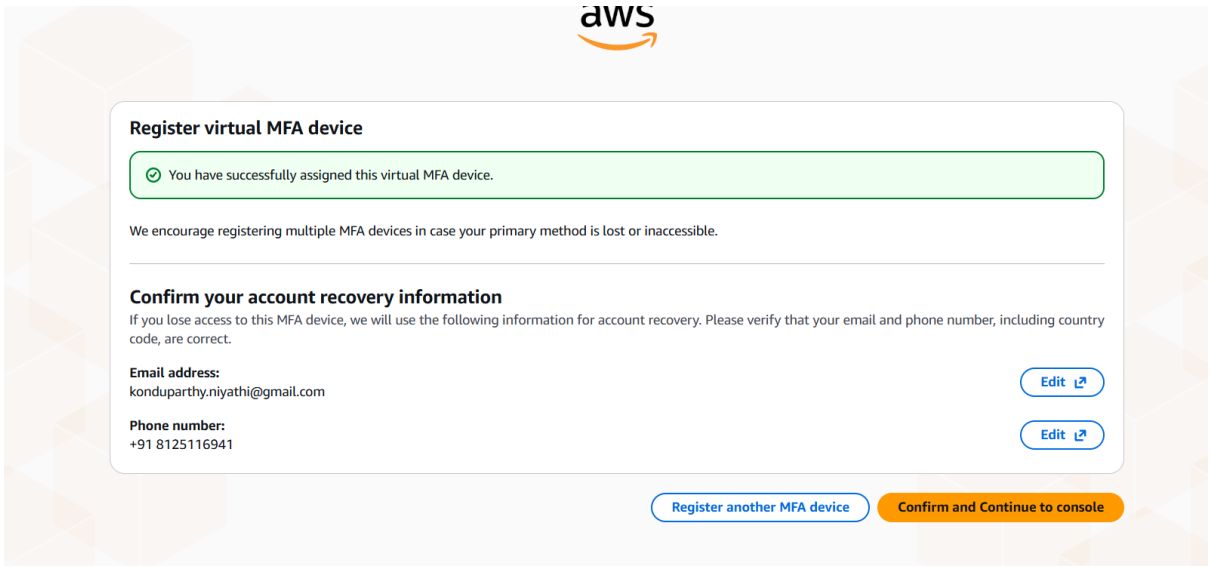

First code

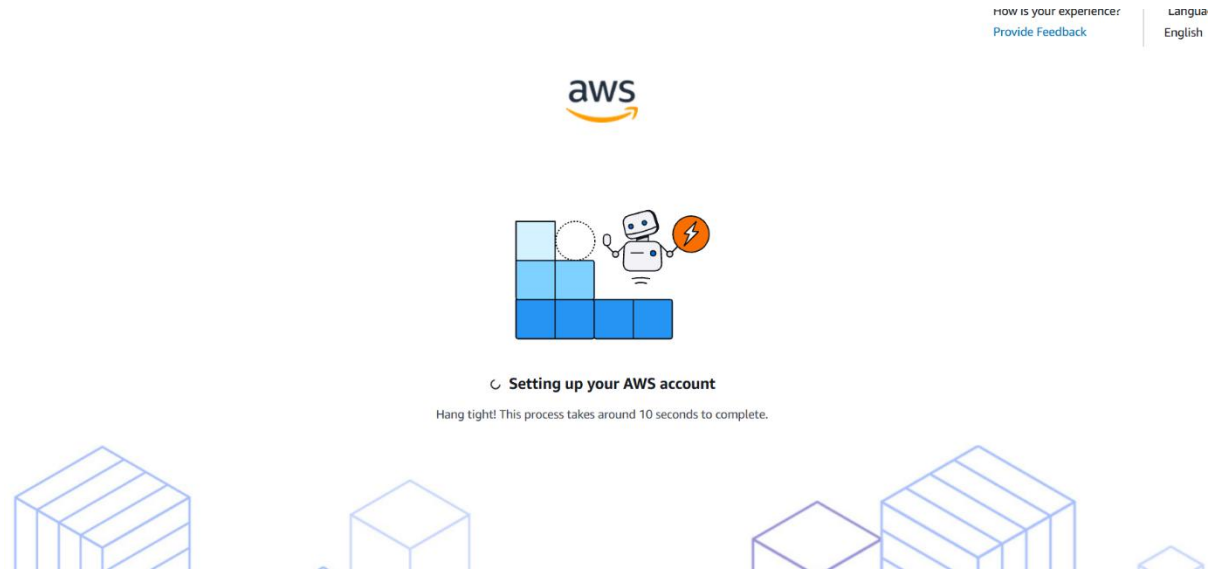

6 digit code

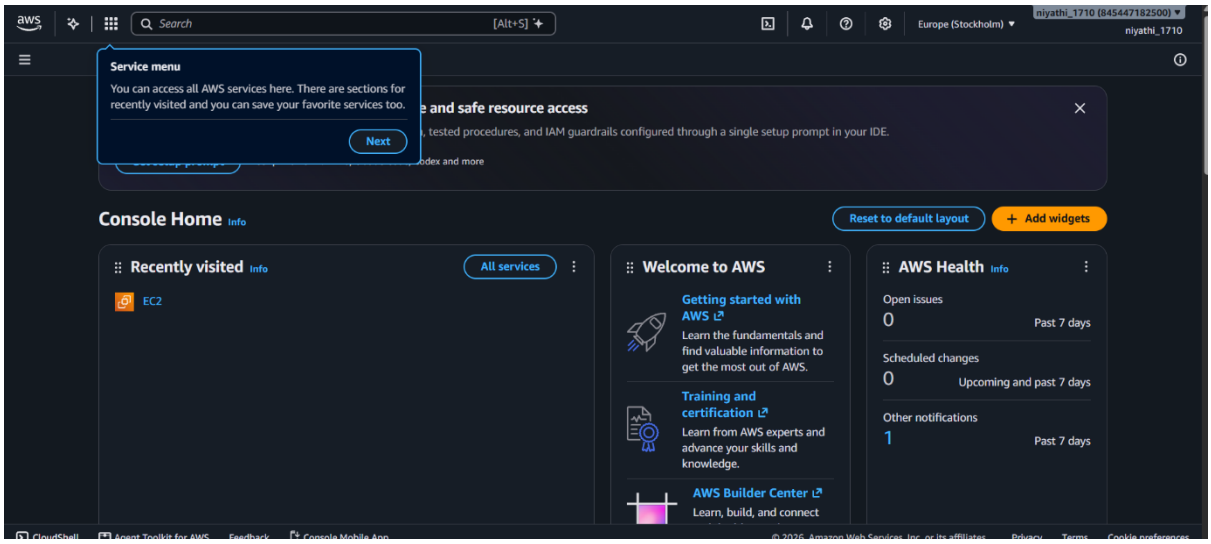

Second code

6 digit code

Cancel Register MFA

Register virtual MFA device
You have successfully assigned this virtual MFA device.
We encourage registering multiple MFA devices in case your primary method is lost or inaccessible.
Confirm your account recovery information
If you lose access to this MFA device, we will use the following information for account recovery. Please verify that your email and phone number, including country code, are correct.
Email address:
konduparthy.niyathi@gmail.com
Edit
Phone number:
+91 8125116941
Edit
Register another MFA device
Confirm and Continue to console
